## Children and Pimples

Seem to Go Together and Yet Few Parents Fully Appreciate the Warning.

At the age of puberty most children are afflicted with pimples and many with serious skin eruptions. At this particular period in a child's existence nature is going through a transition which is of vital importance to the child and the parent.

Pimples on the face of a child removed by Stuart's Calcium Wafers.

The organs of the child all become larger. The skin begins to grow hard, the glands and cells of the skin apparently become stronger and larger. Impurities occur in the system and poisons enter the blood and are thrown off usually from the face in the form of pimples.

Mothers should zealously guard the child against serious blood impurity at this time. Our grandmothers gave sassafras root, cream of tartar and sulphur every spring. These simple remedies did a good work, but science has discovered the most powerful and beneficial blood purifier to be Calcium Sulphide.

Stuart's Calcium Wafers are prepared after the most modern method of conveying the full strength of Calcium Sulphide to the blood. They lose none of it through evaporation and chemical change like most calcium sulphide remedies sold today. Stuart's Calcium Wafers also contain Quassia, Golden Seal and Eucalyptus, all known purifiers of great power. Combined with these ingredients is a pure vegetable alternative and laxative which, when the other ingredients clear the blood from poisons and decay, throw off this impure matter from the system through the bowels and in a natural, easy manner.

Stuart's Calcium Wafers should be in every household, and used by the parent for the benefit of the child. They are harmless, promote normal appetite and digestion, beautify the skin and enrich the blood, so necessary to the rapid growth of the child.

Go to your druggist. Ask his opinion of Calcium Sulphide as the Stuart process presents it to the blood. He will sell you a package for 25 cents, or send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

## VESSEL AFLOAT 24 HOURS

Cruiser Yankee Meets With Another Mishap and Goes to the Bottom.

### ESCAPE OF WRECKING CREW

GALE AND HEAVY SEAS RESPONSIBLE FOR ACCIDENT.

New Bedford, Dec. 5.—Freed from Spindle rock at the western entrance to Buzzards bay, where she had been impaled for ten weeks, the United States cruiser Yankee sank six fathoms deep early today near what is known as the Sand Spit, while being towed to this city for repairs. She lies a short distance to the north of Penas island and not far from the ledge on which she had rested since Sept. 23 last. The sinking of the cruiser occurred at 4 o'clock this morning. Exactly twelve hours after she was floated from the ledge. In spite of the discouraging situation it is believed that the vessel can be raised and work to that end will be begun before night. The cause of the accident, the culmination of a series of misfortunes, which have befallen the Yankee, was an unusually heavy sea kicked up by a high northwest gale. The cruiser, in tow of the tug John Harlan and Powhattan and conveyed by the naval collier Lebanon, was proceeding slowly from Spindle rock to this port. In the gale the vessel was pitched and rolled so for the tenth time, and the tug John Harlan was trying to call another towing line when she was lifted on a wave and slammed against the side of the cruiser. The impact smashed in a port in the compartment where three air compressors were at work, and through which poured through the open port disabled the air pumps, after which the compartment filled rapidly.

### Reeled Suddenly and Sank.

The cruiser did not sink at once. Captain James T. McAllister, who was in charge of the marine engine of the wrecking work, in view of the danger, warned the members of the wrecking crew to leave the ship. All but six of the ninety-two men left the Yankee and she was then straightened as well as the wreckers could do it, and attempt was made to drag her to Penikese island and beach her. This plan seemed likely to succeed, but not far from the island the cruiser reeled suddenly and sank in forty-two feet of water. Commander March of the Yankee, Captain McAllister, Engineer Wetherspoon and six other officers and crew members were on board, ran up the rigging and later jumped safely on board the Powhattan. The Yankee went down into a sheltered position and on a bottom of an even keel, resting on sand. Her forward deck, spars and the top of her funnel are above the surface of the water. The collier Lebanon is standing by.

The wrecking crew, Commander March, Captain McAllister and Engineer Wetherspoon were brought here during the day by the Powhattan and the John N. Harlan. The officers planned to return to the wreck later, taking a diver with them as they believe that the cruiser can be refloated. The tug John Harlan suffered somewhat from her towing work, but the Yankee the railings and stanchions about the pilot house of the tug being carried away, while the commander of the tug, Captain Chase, had a narrow escape from serious injury.

### TOO LL TO STAND TRIAL

Case Against Mrs. Allen F. Read of Denver Postponed for Two Weeks.

Denver, Dec. 5.—Again the sensational and almost deadly exploit of Mrs. Allen F. Read, who on Nov. 9 attempted to extort \$20,000 from Mrs. Genevieve Chandler Phipps and hurled a stick of dynamite when Special Officer J. R. McDonald of the International Trust company sought to arrest her, has been recalled to public notice.

Attorney Charles W. Waterman, counsel for Mrs. Read, appeared in the criminal court today and asked for further time in which to demur or plead to the charges brought against his client. He represented that Mrs. Read is still too ill to appear, and an affidavit of her attending physician, in substantiation of his statement, was presented.

Judge Riddle reset the case for two weeks hence. Two informations against Mrs. Read had been filed. The first, made on the affidavit of Mrs. Phipps, charges Mrs. Read with assault with intent to rob and commit larceny. In this case the bail was fixed at \$5,000 and was furnished by W. H. Hovey and R. A. Morrison. The second information, made on the sworn statement of Special Officer J. R. McDonald, charges that Mrs. Read made an assault with intent to kill the affiant.
